Title: Member Engagement

As a consortium of 105 universities, UCAR manages NCAR and a host of important community programs. During this break-out session, we want to discuss how we can work together to: leverage the power of the universities for the re-competition; manage NCAR for the benefit of the community over the next decade; respond to community needs and set priorities.

Title: University Expectations for NCAR Diversity, Education & Outreach

An important part of the missions of UCAR and NCAR is the support of diversity, education and outreach (DEO) within the university community. NCAR is in the process of developing its DEO strategic plan (due October 2016), and we want to carry out this process in collaboration with our members to ensure that we develop a DEO portfolio at NCAR/UCAR that meets the needs of our Members, university faculty and students. Before the Members Meeting, we will send out a survey to all UCAR Members to collect feedback about our current programs, and what kind of additional resources and services would be useful to you. We would like to use this session to better understand, in person, your experiences, needs, and how we can best partner with our Members in the future.
